

ORGANIC BEEKEEPING

Keep Your Hives Producing Naturally with Old Remedies and Modern Science

Left Hand
Navigation

Sign up TODAY for access to the largest, most convenient, and most comprehensive beekeeping community in the world – Worldwide.

Worried about the health of your hives in today’s world of pesticides, crop dusting, and cell phone usage? We are.

Or rather, we were. Then we decided that it was time to do something about it.

All over the world men and women keep bees and extract honey and beeswax – two of the most health-beneficial substances known to science. And all over the world beekeepers have experienced the same *problems, scientific quandaries, and heartaches.*

So we give you The **ORGANIC BEEKEEPER**, supplying natural and holistic remedies for your hives during the hardest years.

And NOT ONLY is Organic Beekeeper up-to-date on the most cutting-edge scientific research, and constantly collecting tried-and-true home remedies, we help you with other aspects of your business.

Real beekeepers tell you how to:

- **Minimize Cell Phone Damage**
- **Use Natural Shape-and-Color Recognition to Easily Separate Your Hives**
- **Find Deals on the Latest No-Break Extractors**
- **Avoid Bad Bees**
- **Maintain Good Relationships with Your Farmers**

Learn the fastest and safest ways to transport your bees across borders and customs...

*“It seems like transporting bees gets tougher every year. I have to drive from California to Alberta – in just 24 hrs. Wish I’d had Organic Beekeeper’s **Customs’ Guide** last year!”*

Pete Paetkau
Valleyview, Alberta

In fact, homespun experts like Pete Paetkau – with over 40 years’ experience dealing with some of the toughest conditions on earth – are our contributors. Your FREE sample issue will tell you about Pete’s yearlong struggle with African Killer Bees; and the type of bee he finally settled on as giving him the best honey possible for their pleasant disposition.

Bee Diseases – How to Treat Tiny Diarrhea

Specialist veterinarians like Dr. Schwegmann help you to understand the various health risks your hives are likely to encounter naturally; diarrhea...a dead queen...and chalkbrood.

In fact, each **bi-monthly** issue contains a new health advice column from a different specialist from a different part of the world.

Equipment – It's not just the little foxes that wreck your day!

Extractors do break down, loaders jam up, spinflows fail...

...Usually spinflows will fail in mid-spin, which leaves you *under* the flow.

A host of mechanically minded DIYers tell you easy fixes for common problems.

And when that's not enough, we have an entire **Buying Guide** section that details the latest equipment, as well as updates on pricing, sales and package deals from multiple companies.

Start Your Risk Free, 30-Day Free Trial of the Organic Beekeeper Today

Sign up now and get:

- Our Complimentary Sample Issue
- Two Free Issues of the Bi-Monthly **ORGANIC BEEKEEPER**

For a limited time pay **only \$59** per month instead of the typical \$67!
