

A Dog Is Not Your Whole Life, But They Make Our Lives Whole

Puptastic – *Benefit Your Dog: Benefit Yourself*

Dear Fellow Dog Lover;

You love your dog for many reasons, but do you know why they love you? Is it because you feed them – no. Is it because you groom them – no? Is it because you house them – no? Or is it because you are their companion, take them for walks, talk to them, pet them, and lavish them with attention? No. They love you because they TRUST you. They trust you to provide all of the above, but they also trust you to choose the very best you can for them, no matter what. They TRUST you to choose for their highest good and because you love them, you do.

What do dogs know of money... good looks... status symbols (even if they are one)... name brands... even ingredients. Dogs know love, more specifically, they know whether or not you love them the way they deserve to be loved. That is the honesty of a dog, and that is why we love them. We earn that trust, and that unswerving love, by choosing the very best for their emotional and mental health... How? With PUPTASTIC NATURALS.

Fantastic – Puptastic...!

If, like me, you take your beloved pets' health seriously, then you are always trying to provide them with the best quality of food you can. And if, like thousands of other dedicated pet owners, you stay informed, then you know that there have been way too many dogfood recalls in the past. DogFoodAdvisor has 31 listed in 2015 alone! And these are brand names we've trusted for years, from IAMS, to Honest Kitchen, to Ol'Roy. Now the FDA is saying they're harmful. But don't despair, because there is one brand you can TRUST, that has never been recalled, and has been making 100% all-natural treats for your dog since 1990. And that brand is PUPTASTIC NATURALS.

Whole Foods for Whole Dogs

Puptastic Naturals, created by Furry Friends Natural Products, Inc. out of Grayslake, Illinois, has heard your cry for healthy dog treats and has answered it with their completely natural “kitchen made” bite-size treats made from farm-fresh ingredients including:

- 🐾 Eggs;
- 🐾 Lean poultry;
- 🐾 Lamb;
- 🐾 Liver & beef, for protein;
- 🐾 Brown rice & potatoes, for starch;
- 🐾 As well as carrots, green beans, pumpkin, and sweet potatoes for healthy nutrients and fiber.

Even better, these treats DO NOT contain any artificial colors, flavors, or chemical preservatives; they DO contain Vitamin E as a natural preservative to maintain product integrity during shipping and storing. And that’s not all it’s good for. Veterinarians give Vitamin E for dogs a “big thumbs up!” Vet.Info states that Vitamin E is believed to promote circulation, slow down the aging process, prevent cataracts, invigorate the immune system, help with spinal problems and promote healthy skin.

From the American Midwest:

PUPTASTIC NATURALS is a family company, owned by Dale & Sharon Nickleson. In 1990 they decided to start their own company to meet not only the needs of their own beloved dogs, that they wanted to be healthy

and happy, but also those of pet lovers across America. So they worked hard to find farms that follow organic and healthy practices for raising poultry, cattle, etc, and also for growing produce. They wanted healthy treats for their dogs, and they made sure they got them. They find the healthiest ingredients, then they bake their PUPTASTIC NATURAL treats in a “people food” quality kitchen that exceeds the standards of the FDA and the AAFCO (American Food Control Officials.)

🐾 *“As a vet I’ve struggled with what advice to give my dog owners when it comes to brands they can trust, but since PUPTASTIC NATURALS debuted their 100% natural treats, I struggle no more. And the Vitamin E is a bonus I just love.”*

All 5 flavors of PUPTASTIC NATURALS are baked with loving care right here in the U.S. of A. – not in some factory in a foreign country where quality control is non-existent. And PUPTASTIC

NATURALS does Not contain corn. DogFoodAdvisor busts the “corn is good for dogs’ myth” with these facts:

MYTH	FACT
Dogs use corn for energy	Dogs use MEAT for energy
Corn is nutritious	Corn has unremarkable vitamin & mineral content
Corn is healthy for dogs	Corn is a likely cause of canine allergins
Corn does not raise canine blood sugars	Corn has a high glycemic index

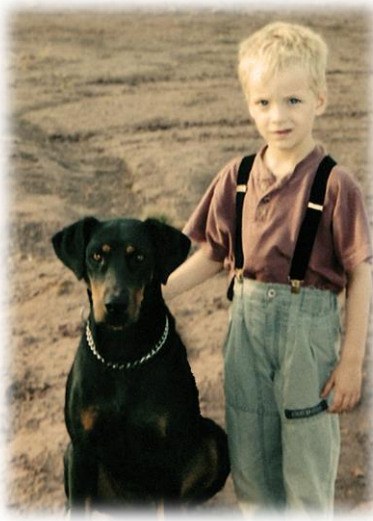

***PLUS:** 90% of corn grown in the US is GMO (genetically modified organism)

Rewards for Love & Loyalty

I'll talk more about this incredible offer in a minute, but first let me tell you about the amazing dog training booklet we'll include FREE with your first monthly delivery. We all know that dogs are extremely eager to please. They're willing, waiting and wanting to please. And what better way to encourage them than by rewarding them with the treats they love. "7 Days to a Civilized Dog" written by noted dog-whisperer Lorraine Knowlls will help you use your dog's natural eagerness to please and our Puptastic Naturals Treats to train your dog in civilized behaviors that everyone can live with. In fact, in her introductory paragraph, Ms. Knolls recommends using wholesome treats for training. We believe that those treats should be Puptastic Naturals.

Puptastic Naturals are packed in re-sealable foil bags to help keep them fresh and chewy for your dog's continued enjoyment. However, we all know how any little crumb in the zipper can cause all sorts of frustration in closing and resealing the bag. In the interests of convenience, freshness, & enjoyment, Dale & Sharon are happy to include a Puptastic Naturals dog treat dispenser along with your first month's order. These tubs come in red, white, or blue (your choice) and will keep your dog treats fresh and easily available to everyone in the family – except your dog.

Treat Yourself to a Healthy Friend

Puptastic Naturals can be purchased in high end pet food stores, but Dale and Sharon would like to offer you the convenience of their monthly delivery service. When you sign up for our monthly service, you will receive your order the first of every month along with access to our Customer Service Staff from 9 AM to 6PM EST, and our Q&A website; where Henry Weisz DVM will answer questions regarding the care & feeding of your dog.
